General Guidelines

- Your list of references should begin on a separate page, with the title "Works Cited".
- Arrange entries alphabetically, using the last name of the author. If no author is given, alphabetize by the title, eliminating any initial A, An, or The.
- Begin each entry at the left margin. Indent the following lines one-half inch from the left margin.
- Double-space within each entry, and between each entry.
- Follow carefully the punctuation, underlining, and capitalization in the examples.
- Shorten the name of the publishing company by eliminating articles (A, An, or The), business abbreviations (Co., Inc., Ltd.), and descriptive words (Books, House, Press). However, when citing a University Press, add the abbreviation "UP" (Ohio State UP). If the publisher’s name is the name of one or more persons, cite the first surname only (Abrams).

In-Text Citation

Parenthetical references

- The list of Works Cited at the end of your paper tells your reader what resources you used to write your paper. To avoid plagiarism or taking credit for ideas that are not your own, you must also indicate in the text of your paper precisely what is borrowed from a source and where to locate that information in the source.
- The in-text citation usually appears in parentheses and corresponds directly to an entry in your list of Works Cited.
- The author's last name and the page number are usually enough to indicate the location in the source.
- If the author's name is used in the sentence, do not repeat it in the citation.
