

CITED REFERENCE SEARCHING

ISI Citation Indexes on DIALOG

Available for registered CSUN faculty and students.
Limited display of cited references retrieve using ISI through DIALOG.

Will retrieve title and year only of article citing – author, journal title, volume or issue numbers not included in the result.

- Science Citation Index (SciSearch)
- Social Sciences Citation Index (Social SciSearch)
- Arts & Humanities (full version available through First Search)
- Use Google Scholar or Multifsearch to find full citation

Limited searching for cited references available through:

General and specialized databases

Publisher full text packages

Google Scholar

Google Scholar searches for scholarly resources based on information provided by publishers and academia. Supports searching for authors and titles of articles and books. Contains duplicate entries.
