

INTERESTING FACTS ABOUT LAKE ARROWHEAD

Lake Arrowhead is a man made lake for resort and pleasure purposes only. The water level is 5106 feet above sea level.

The dam at the east end of the lake was built between 1896 and 1905, creating Lake Arrowhead. The Lake is 2½ miles long and 1½ miles wide.

In summer, our temperatures seldom exceed 80 degrees in the daytime. At night, you will enjoy a light blanket for sleeping comfort. The summer temperature of the water at the swimming beaches is 70 degrees.

The 5,000 acres of land surrounding Lake Arrowhead is known as ARROWHEAD WOODS. In order to put your own boat in Lake Arrowhead, it is necessary to be a property owner in ARROWHEAD WOODS.

While you are enjoying your stay at Lake Arrowhead it is true that you are at 5,000 feet elevation in our beautiful mountains. However, you are no more isolated than you are in your living room at your home. Here, we have all city utilities, sewers, natural gas, electricity, the finest water and telephone service. We are only one and one half hours from metropolitan Los Angeles via year 'round state highways. You know you will enjoy the pure fresh mountain air---completely smog free----and the restful contentment which goes hand in hand with living in the mountains. In the mornings, if you are an early riser, you will awaken to the songs of the birds. The woods are full of Orioles, Whipporwills, Blue Jays, Robins and Chick-a-dees. If you will hold grain in your hand and be patient, soon a Chick-a-dee will light in your hand for a snack. The many trees in our area are Sugar, Jeffry, Western Yellow, Coulter and Ponderosa Pines, Red Fir, White Oak, Cedar, Black Oak, Dogwood, Live Oak, Willow, Alder and the White Fir, (Christmas Tree). The Colorful forest flowers are the Snow Flower, Blue Lupin, Wild Iris, Indian Paint Brush and beautiful ferns in abundance.

Most visitors fall in love with Lake Arrowhead. If, while you are here, you would like to investigate the ownership of a "second home" for weekends or care-free vacations, we would like to have you visit one of our two conveniently located offices. (It may be later than you think!)

Your own doctor will tell you (as Dr. J. Fraser Barbrick has told us) that in order to derive the most healthful results from your vacation, you should choose a different elevation. It is good for your metabolism. Lake Arrowhead at 5000 ft. offers the ultimate in healthful, pine-scented, refreshing mountain air.
