

# CSUN ScholarWorks

<http://scholarworks.csun.edu/>

As an engaged and active scholar, you are likely aware that institutional repositories like ScholarWorks offer open access to a range of resources including peer-reviewed articles, pre-prints, graduate theses and dissertations, creative works, presentations, data sets, and more.

Now CSUN ScholarWorks introduces its latest service, Scholar Spotlight. We offer this full-service program to expand the online impact of your research, and highlight the depth and breadth of CSUN's scholarly accomplishments.

**Join Scholar Spotlight. It's easy!**

**Send us a copy of your CV.  
We will take care of the rest.**

#### What we do:

- We create your own author section, a gateway to your own permanent digital collection. Sample: <http://scholarworks.csun.edu/handle/10211.2/849>
- We will research deposit policies of your publishers, and identify publications that can be added to the repository.
- We will obtain digital copies, scanning print if necessary
- Finally, we will upload your work into your author section, providing metadata and ongoing digital preservation support for your scholarship.

**STEP 1:  
Send us  
your CV**

**STEP 2:  
We create  
your online

legal copies  
of your  
work**

#### THE BENEFITS OF PARTICIPATION:

- ScholarWorks offers powerful distribution potential that complements the traditional publishing models and expedites access to your scholarship.
- ScholarWorks preserves and documents authors' inherent copyrights.
- ScholarWorks allows you to freely, legally and permanently link to your research from external documents and websites.
- ScholarWorks satisfies open-access publishing requirements, such as those from the National Science Foundation, to publicly disseminate the results of grant-generated research.
- ScholarWorks is optimized for visibility through online search engines such as Google, Bing, and Yahoo!, resulting in increased citations, visibility and impact for your research.
- ScholarWorks provides the global community barrier-free and cost-free access to your research. In a time when the average annual scholarly journal subscription costs \$1,200, open-access publishing is an important antidote to rising costs and decreases in state funding for higher education.
- ScholarWorks is archived and preserved against any vendor service interruptions; each work submitted receives its own permanent internet handle, so links to your scholarship will never expire.
- Upon request, ScholarWorks provides download statistics for all submissions, which can be used to demonstrate your scholarly impact.
